

National Power Announces Expansion of Service Platform

Raleigh, N.C., June 30, 2022 – National Power announced that the Company has continued to expand its Service platform in support of major customers’ critical power repair and maintenance needs. Over the last eighteen months, the Company has expanded its service capabilities across 19 new states, including major investments in the growth of its team of talented service technicians, vehicles, and equipment. In addition, the Company has invested significantly in technology and systems to support this expansion. This includes state-of-the-art work order management and technician scheduling capabilities, GPS tracking and route optimization, and the ability to integrate directly with customers’ facilities and asset management systems.

Chris Hutter, National Power’s Chief Executive Officer, stated, “We are excited about the expansion of our service business and ability it provides us to deliver even stronger reliability and resilience to our customers critical operations. In addition to the expansion, we have invested heavily in the quality and efficiency of our platform to ensure we are delivering our customers gold standard service. Our local technical teams support customer sites across the U.S. and are standing ready 24x365.”

About National Power

At National Power, everything we do is focused on delivering reliability and resilience to mission critical customers. Our power and infrastructure solutions lead the industry, with a deep and broad set of capabilities that include standby power, AC and DC power systems, batteries and energy storage, renewables, HVAC, UPS systems, power quality, and disaster recovery. Our team is built to serve the needs of sophisticated customers whose operations simply cannot be interrupted. This includes customers in the broadband, telecom, healthcare, manufacturing, municipal, water/wastewater, military, retail/distribution and other critical industries. We have delivered thousands of successful projects over decades. We also provide on-going preventative maintenance and emergency service – bolstering the reliability of our solutions. We serve customers coast-to-coast, with teams built locally. We can be found online at www.natpow.com.
